

WELCOME BOOK

WELCOME

We are very happy to welcome you to the estate for your Norman stay.

We are Lise and Gilles, the happy parents of two little girls, Noé and Lou and owners of the place.

We thought of this place as a large country house where everyone would feel at home. A place that brings calm and serenity.

This is why we have put together a multitude of little things for you to allow you to fully enjoy your stay.

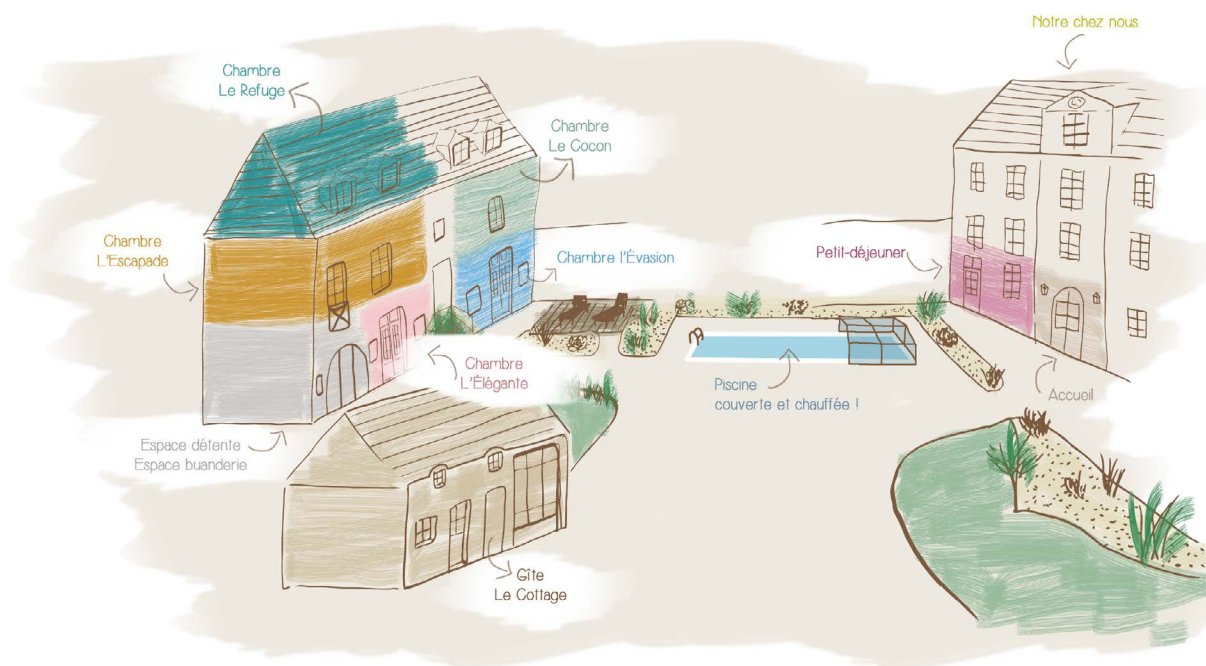

You will find in this guide all the useful information during your stay: meals, shops, well-being... but also links to regional tourist information.

And if you have any questions to ask us, we will be happy to answer you at breakfast or throughout the day by ringing directly at the door of the main house.

We wish you a very pleasant stay at the Domaine and in Normandy.

Lise and Gilles

THE SWIMMING POOL

The swimming pool is accessible from **9 a.m. to 9 p.m.**

For the protection of children a shelter is placed on the basin.

You have two options for accessing the pool, open the enclosure completely or leave it closed and access the pool via a side opening.

This allows use of the pool during bad weather.

Concerning the use of the swimming pool with shelter, you have a side opening accessible with the red key present on your keychain

Regarding the use of the swimming pool without an enclosure, you must remove the code padlock (code 0000) and **carefully and gently** open the enclosure until you are comfortable.

We draw your attention to the use of the shelter which must be cautious.

The opening must be smooth and without blows.

I also particularly draw your attention to the presence of children in the area and to the need to **comply with the safety** rules regarding the installation of the shelter after each departure from the swimming pool.

The pool should never be left unattended and unprotected.
